### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Siwen Chen on 5/14/04.

The application has been amended as follows:

In claim 18, line 1 delete "wherein the" (second occurrence).

2. The following is an examiner's statement of reasons for allowance: Applicants amendment to claim 16 to teach the specific dominant wavelength, color purity, photopic transmittance and scotopic transmittance distinguishes over Coleman and Baney. The prior art of Havens (5973865) teaches a polymer matrix comprising a dye and having similar properties for the color purity and dominant wavelength, but fails to teach the use of a photochromic dye therein. The prior art of Goepfert teaches a polymer matrix having similar scotopic and photopic transmittance values, however it differs in that a photochromic dye is not included or associated with the matrix, but a second glass layer which is photochromic may be used therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip C Tucker whose telephone number is 571-272-1095. The examiner can normally be reached on Monday - Friday, Flexible schedule.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
